CITY INTELLIGENCE.

THE STAR COURSE ON LECTURES,-The brilliant success of the "Star" course of lectures last season, under the management of Mr. T. B. Pugh was, in an eminent degree, gratifying to all parties concerned in them—the public, the lecturers, and the manager. The thousands of citizens of Philadelphia who so heartivenjoyed these refined and intellectual entertsinments will be gratified at the eleborate programme perfected for the present season by Mr. Pugh. The list of lecturers and readers which he announces embraces the names of the most eminent of the day, and an inspection of the list will show announces embraces the names of the most eminent of the day, and an inspection of the list will show that special pains have been taken to secure as much variety as could be desired, and with the supplementary and scientific lecturers, in addition to the regular course, our citizens may congratulate themselves on the prospect that the "Star" course of the present season will suppass that the list.

NED LYONS.

His Arrest in New York State. Detective Franklin returned to the city this morning from Warsaw, Wyoming county, New York, where he lodged a detainer against Ned Lyons, alias Landman, the Navy Yard burgiar. The officer gives some interesting facts concerning the capture of this noted character. As stated in The Telegraph of yesterday Lyons was taken into custody upon the charge of attempting to break into Smith's Bank, at Perry, Wyoming county, on Sentember 9. Detec-Perry, Wyoming county, on September 9. Detective Franklin states that two well-known burgiars of this city, Jim Hepe and — Hughes, were arrested at the same time. This robbery was evidently planned prior to the Navy Yard attempt, for on the escape of Lyons on straw bail, he at once New York. His escape took place in the latter part of August, and the attempted robbery in Perry oc-curred only a short time after his departure from were about operating on one of the safes when they were alarmed by the presence of several of the members of the Vigilance Committee formed in that

They left the institution in quick order, and ran in different directions, pursued by the citizens of the town. The railroad depots were guarded, and every precaution was taken to prevent their flight from the place. Lyons was the first one captured. He was approached by one of the Vigilance Committee and ordered to surrender, but he refused and showed fight. The former drew his revolver, and Lyons did likewise. Three shots were exchanged, but none took effect. Several citizens coming to the assistance of the committeeman, the burglar surrendered, and was conveyed to Warren jail. His 'pals' were subsequently arrested. Mr. Franklin states that the evidence against the prisoners is overwhelming, and it is doubtful whether they will escape with less than

tive years' imprisonment each.

The footprints of a horse were discovered in the immediate vicin'ty of the bank, and these were traced some miles distant, where the animal, with wagon a tached, was found. In the vehicle the committee recovered a number of burglar's tools. The horse was lame in one foot, and an effort was then made to find out from whom it had been hired. Six miles distant from the place of concealment a livery stable keeper was found, who identified the anima as his property, and also recognized Lyons and his two companions as the individuals who had hired the

team of him.
In the possession of Lyons was recovered a me morandum, which led to the search of a room in a hotel in Rochester city. Here the officers discovered a carpet-bag containing a full and complete set f burglar's implements.
District Attorney Forman, of Warsaw, purposes

trying the prisoners first on the charge of attempted robbery. In case of a failure to convict, Lyons will then be arraigned upon the charge of assault with intent to kill. If this should fall, the requisition from the Governor of Pennsylvania, now lodged as a detainer, will be produced, and on this he will be brought to this city.

THE POLICE WARRANTS.—City Controller Hancock this morning signed all the police warrants, with the exception of forty odd which he still holds under consideration. On Wednesday he sent a communication to Mayor Fox, in which he stated that he desired the stated of the sent and t that he had numerous complaints against certain of the policemen who had been employed as can-vassers by the Democracy in the time they should have devoted to the city, and yet these men were credited with full pay on the rolls. Among these were Dougherty and McCullough, of the Fourth dis-trict, who were proven before U.S. Commissioner Biddle to have been engaged in vouching for registration frauds. Two others of the Sixteenth district have, it is alleged, been engaged in the naturalization business for two weeks, during which time they had not been on police duty. The names of the policemen were faraished the Mayor, who, in letter sent yesterday, informed the Controller that he had the same vouchers in the above cases as he had in the cases to which no objection had been made. The Controller will not sign these warrants until the Mayor has instituted a full investigation and furnishes the testimony which will satisfy Mr. Hancock that these men are entitled to full pay.

During the pight John attempted to make his escape. In this condition he was discovered by the turnkey, who hauled him out. The prisoner had a hearing before Alderman Bonsall and was committed to answer the charge of malicious mischief.

A THEASANT REUNION.—Dated J. March, D.D., pastor of the Clinton Street Preshyterian Church, returned to this city yesterday. For nearly a year this dryne has been a sojonther in Europe, along the Nile, and in the Holy Land. He sought relief from protracted pulpit and pastoral labors in travel, and came home restored in physical vigor and enriched with experience among the historical centres of the Old World. Tokim his congregation last evening gave affectionate greeting. The lecture-room of the church was decorated with everpreens and magnolia blossoms. He spoke of the many lands he had visited, and the value that his pulpit ministrations must receive in the future from his experiences in the scenes of Biblical history. Of these he promised to more thoroughly speak on ano her occasion. During his tarryings in Palestins he procured stereoscopic views of the most noted places in Judea. These he will illustrate in lectures to the Sabbath-schools. Other addresses were made by President Catteil, of Lafayette College, Mr. Kennedy, and Rev. Dr. Mears.

Mr. George W. Mears stated, during the evening, that Dr. March left in Paris his trunk containing manuscript notes of his visit in the East. This was prior to the war. Before he could re-enter Paris

ARREST OF NEGROES,-About 7 o'clock this morning, the police of the Fourth district, under charge of Lieutenant Klincky, made the arrest of eight negroes as they landed at Arch street from the steamer Henry L. Gaw. The arrest was made in consequence of a despatch which was received from the Chief of Police of Baltimore, stating that a party of colored men had left there, for the purpose of illegal voting in Philadelphia. It is alleged that on their persons were found tax receipts signed by Tatham, and in addition slips of certain candidates in this city. Counsel were engaged to represent these men, but they were refused admission to their cells. The names of the three person are Wm. Hall, Thomas Bowen, Frank Washington, James Spiddle, Samuel Fisher, Charles Smallwood, Jeremiah Highland, and Frank Williams.

The animal was recovered at Front streat county. The animal was recovered at Front street and Girard avenue, and was recovered at Front street and Girard avenue, and was traced to the posses-sion of the defendant. FROM WASHINGTON.

Important Postal Order-Our Foreign Malls. Despatch to the Associated Press.

Washington, Oct. 7. - Announcement is made by Joseph H. Blackfan, Superintendent of the foreign mails, by order of the Postmaster-General, that a postal convention has been concluded between the United States and the Colonial Government of New Zealand, establishing an exchange of correspondence between the two countries by means of the direct line of colonial mail packets plying between San Francisco and New Zealand, as well as by such other means of direct mail steamship transportation as shall hereafter be established, with the approval of the respective post office departments of the two countries.

This convention will be carried into operation on the 1st of December, 1870, and establishes an international letter postage of 12 cents (6 pence) per each single rate of half an ounce or fraction thereof, the prepayment of which is compulsory, and the letters so prepaid in one country are to be delivered free of all charges whatsoever in the other. Letters posted unpaid or prepaid on any amount less than on full single rate of postage cannot be forwarded. But insufficiently paid letters on which a single rate or more has been prepaid will be forwarded charged with the deficient postage for collection on delivery.

Each country is to collect its own postage only on printed matter of all kinds, whether sent or received at the following rates, viz.:-The United States postage on newspapers is fixed at two cents each; on all other articles of printed matter four cents per each weight of four ounces, or fraction thereof, whether sent or received. The New Zealand postage on newspapers and other articles of printed matter sent to or received from the United States is the same as charged for domestic postage by the laws and regulations of that colony.

Provision is made for the transit through the United States, as well as the conveyance by the United States mail packets, of the correspondence. in closed mails, which the New Zealand Post Office may desire to transmit, via the United States, to British Columbia, the British North American Provinces, the West Indies, Mexico, Central America, and South America: and it is also provided that prepaid letters from foreign countries received in and forwarded from the United States Zealand shall be delivered to New in said colony, free of all charges whatsoever, and that letters received in New Zealand from the United States, addressed to New South Wales or Australia, will be forwarded to their destination subject to the same conditions as are applicable to correspondence originating in New Zealand, and addressed to those colonies. New York, Boston, and San Francisco are the offices of exchange on the side of the United States for all mails forwarded to or received from New Zealand under the provisions of this convention.

The mail packets of the Colonial Line, plying between San Francisco and New Zealand, make their departures regularly from San Francisco on the 10th of each month. In addition to this connection, it may be remarked that the establishment of a direct line of steamers between San Francisco and New Zealand brings Great Britain nearer to Australia and her other colonies of Oceanica than by way of the Suez Canal, and therefore the British Post Office avails itself of these advantages to forward its closed mails from and to those colonies by way of the United The Irish Republic.

Major Jas. Hagerty, Michael Scanlon, editor of the Irish Republic, and John Kearney, arrived here to-day as a committee from the Irish Republican Club, of New York, to ascertain the effect of the petition they sent to the President a week ago asking for the pardon of General O'Neil and his Fenian associates now in prison. They ascertained that the President will this week issue an order in compliance with their petition and the request of numerous others, including many who also disapproved of the late Fenian raid. N. Y. MONEY MARKET YESTERDAY.

From the N. Y. Herald. "The demand for money on call loans was quite active "The demand for money on call loans was quite active to-day, and borrowers were running about until quite cless upon 3 o'clock. The demand was readily met at 6 per cent, however, and the Government dealers were, as a general thing, accommodated at five per cent. There was no fresh business at four per cent, though some small balances were suffered to lie over at that rate. It is said that a few of the stock houses were compelled to pay seven per cent, on inferior collaterals, but it so these cases were entirely exceptional and the transactions hardly quotable. There was no change in discounts, which ranged from 7½ to 8½ per cent, for actual sales of strictly p-ime double name acceptatices.

"The foreign exchange market was very dull. The leading bankers asked 169½ for sixty days sterling, and 110 for sight, but sales on the street from second hand were fully a quarter per cert. below these figures. Commercial bills were in better supply and quoted 168½ ce108½. Cable transfers were made al 110.

"The cable brought the news to-day of a further sharp apvance in our Five-twenties in London, the cits opening at 91½, and subsequently advancing to 91½, which is within a quarter per cent, of the highest quotation ever made on the other side of the Arlantic. The rise abroad is due to the more widespread intelligence of the Treasury operations, as exhibited in the reduction of the national debt, the intention of the Government to redeem in gold the loan failing due January 1, 1871, and the intended purchase of at least eight millions of bonds the current month. Taken with these facts is the present pletheric condition of the Treasury, which now owns about 85,200,000 in currency. The effect of the advance in five twenties in London was to weaken gold to 112½ from which point the market eventually reached to 152½ from which point the market eventually reached to 162½ from which point the market eventually reached to 162½ from which point the market of the future find the struggle with France no easy one, and hence there is some disposition to discount the probable influence on the German financial markets of a less victorious, if not a disastrous, future for the Prussian armies in prosecuting the war. While the English money market remain so easy, however, it is certain to exhibit the first offices of any depreciation in American securities in Germang and receive the French may we have a self-discount of the German money markets will undergo depreciati in.
